

Priya Sharma

Data Analyst / Business Analyst

priya.sharma.demo@example.com | 202-555-0147 | Bengaluru, India | LinkedIn: linkedin.com/in/priya-sharma-demo

PROFESSIONAL SUMMARY

Data Analyst with 4+ years of experience transforming business data into actionable insights. Strong hands-on experience with Python, SQL, PostgreSQL, Excel, Tableau, Power BI, Pandas, NumPy, Statistics, and Data Analysis. Experienced in dashboard development, KPI reporting, customer analysis, data cleaning, automation, and stakeholder communication.

TECHNICAL SKILLS

Programming	Python, SQL
Analytics	Pandas, NumPy, Statistics, Data Analysis, Excel
Visualization	Tableau, Power BI
Databases	PostgreSQL, MySQL
Cloud / Tools	AWS, Google Cloud, Git, GitHub
Machine Learning	Machine Learning, Regression, Classification

PROFESSIONAL EXPERIENCE

Data Analyst - Retail Insights Solutions | Bengaluru, India | Jan 2024 - Present

- Built Tableau dashboards tracking revenue, orders, conversion, customer retention, and regional performance for leadership teams.
- Wrote complex SQL queries using joins, CTEs, window functions, aggregations, and subqueries in PostgreSQL to analyze transactional data.
- Automated recurring reporting workflows in Python using Pandas and NumPy, reducing manual reporting effort.
- Created data-quality checks for missing values, duplicate records, invalid dates, and inconsistent business metrics.
- Performed customer segmentation and cohort analysis to identify repeat-purchase behavior and high-value customer groups.
- Partnered with business stakeholders to define KPIs, translate reporting requirements, and present analytical findings.

Junior Data Analyst - FinEdge Analytics | Pune, India | Jul 2022 - Dec 2023

- Prepared weekly and monthly business reports using Excel, SQL, and Power BI.
- Cleaned and transformed datasets from CSV files and relational databases using Python and SQL.
- Developed dashboards for sales, customer behavior, and operational performance.
- Performed exploratory data analysis and statistical summaries to identify trends, anomalies, and business opportunities.
- Used Git and GitHub for version control of analytics scripts and project documentation.
- Supported basic Machine Learning experiments for customer churn and lead-conversion prediction.

PROJECTS

Recruitment Analytics Dashboard

- Analyzed recruitment funnel data including applications, interviews, offers, hires, and placements.
- Created SQL-based KPIs for application-to-offer rate, placement rate, recruiter performance, and job aging.
- Built Tableau visualizations for executive recruitment reporting and trend analysis.

E-commerce Customer & Revenue Analysis

- Analyzed orders, payments, customers, products, and seller performance using PostgreSQL and Python.
- Built customer segmentation, revenue trend, geographic performance, and repeat-customer analyses.
- Created an executive Tableau dashboard to communicate findings to non-technical stakeholders.

Customer Churn Prediction

- Prepared features using Pandas and NumPy and trained baseline classification models.
- Evaluated model performance using accuracy, precision, recall, F1-score, and confusion matrix.
- Documented business interpretation and limitations of predictive results.

EDUCATION

B.Tech - Computer Science and Engineering | 2022

Sample Institute of Technology, India

CERTIFICATIONS & LEARNING

- Advanced SQL for Data Analysis
- Python for Data Analysis
- Tableau Data Visualization
- Statistics for Data Science

ADDITIONAL INFORMATION

Current focus: advanced analytics, Machine Learning, and data-driven business decision making. Comfortable working with cross-functional teams and presenting findings to technical and non-technical stakeholders.
